## What is NFT...?

NFTs are tokens that we can use to represent ownership of unique Creations. They can Tokenize things like art, Tunes, Tones, collectibles, They can only have one official owner at a time and they're secured by the Binance Smart Chain BEP-20/also other Block chain System– no one can modify the record of ownership or copy/paste a new NFT into existence.

## Future for NFT

Upcoming Trend in Block Chain system will be based on NFTs only. as it is still in initial stage, it can give tremendous scope for creators, which can help them to earn smart income for their creative works.

## We are already playing in Major music platforms

Apple Music,

I Tunes,

Deezer,

Napster,

Medianet,

I HearRadio,

Amazon Music

and in many Music media Platforms through Distrokid
